Dear, Longbranch Improvement club

I had a fun time at camp because of you spending your money for me. I thought the classes were fun my favorite was the life and death at camp. I figured out so that you can but your paddle to the right and it makes your turn right. Also I learned I'm good at archery better than I thought. Canoeing, archery and the life and death game were the best classes. I also learned all reptiles eggs are warm when there born they also are cold blooded. And the night walks were weird learning that much stuff about your eyes. It was upsetting when orion and ronan left.

Sincerely , ayden dukeshier  
Thanks

Thank you for donating so we could go to camp. I learned how to canoe, I learned about Sea Cucumber, Aggregate Anomie, and all kinds of Things! I also learned about different reptiles, such as snakes and turtles, I liked getting to hang out in my cabin, going to the outback, and doing free time. Thanks again. We couldn't have gone to camp without you.

Dear Longbranch Improvement Club,

Thank you for giving Camp Seymour some much money. So we could go to camp.

My favourite parts of camp was Canoeing, GaGa ball, Basketball, and going to the cabins to play a for while until it is lights out. I learned that reptiles need quiet. I also learned That cucumbers eat squid. Another thing I learned, was never tip the boat on purpose because you get kicked off the dock.

Thank You,

Deven Anderson

Dear  
Longbranch improvement club,

Thank you for giving Evergreen money to go to camp. It was really fun when I went to the the reptile room because I got to hold a tree boa that wrapped itself around my arm, also a turtle and a lizard. Also the gift shop / trading post was cool because I got a mug for \$2.00 . Also it was fun in the cabins because I got the top bunk and we went to other cabins to prank them! Archery was fun so was canoeing on the estuary also the full ball court.

Sincerely,

JJ

Dear Longbranch Improvement Club ,

Thank you for sending us to camp. My favorite part of the camp was canoeing because it was exhausting. I also like archery because the archery targets were big and I like shooting at the target. I learned that snakes had legs a long time ago before they evolved. I also Learned the name of the feather on the end of the arrow is Fletchling.

Thank you again,

**SEAN**

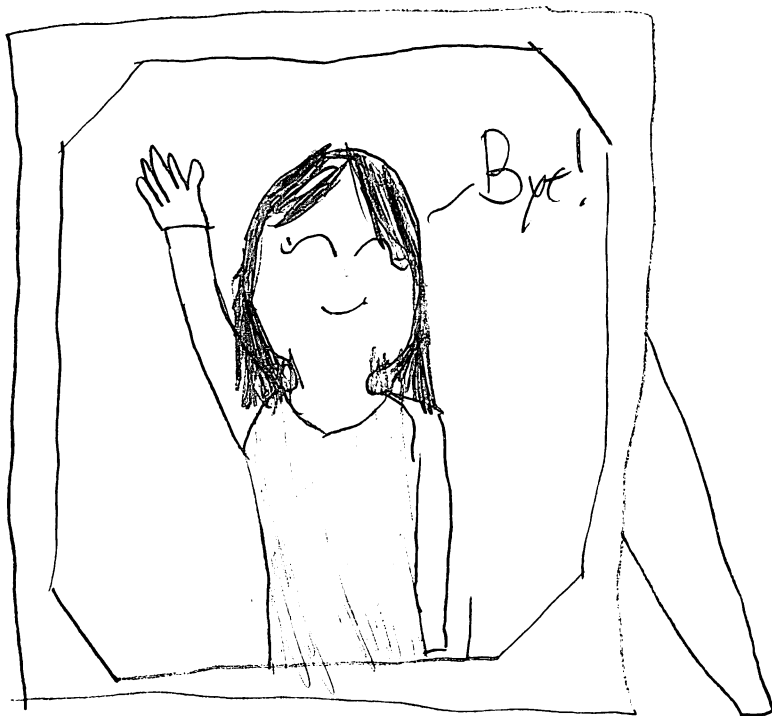

# Thank You Longbranch Improvement club,

Thank you for helping us out with camp! We Wish You Guys Could Come To! My Favorite Part about camp is eating. I know that sounds weird and you guys would think there is better things but don't judge me! I loved the food there.

If I had the power of good luck I would give luck to everyone who helped so us 5th graders can go to camp! And I know I don't have that power but I have the power of writing to thank people! I know that sounds pretty dorky but it's my power and everyone else in our school has it too!

If you still don't feel good about helping us then I'll give you a hug at elementary school! (I'm a living add.)!

Sincerely,

Kylie Slattery

Dear Longbranch Improvement club,

Thank you for donating money to Evergreen so we can go to camp. It was a lot of fun. A lot of us wouldn't be able to go if it wasn't for you. I especially loved the big canoe because if everyone was rowing it was super fast. Thank you again most of us enjoyed it thanks to you.
